

Contact Tracing Event Log

Contact tracing has been implemented as part of the Soapmaking Studio's modifications for safe reopening. Students who attend in person receive a postcard or option to call to report events or symptoms. Event reporting is anonymous; after notification of an event, the Soapmaking Studio will contact all students who attended the class. Students are notified by email within 4 hours and by telephone within 12 hours. This Contact Tracing Event Log PDF is updated every 12 hours.

Thank you for attending _____ class on date _____.

Contact tracing is part of the process of supporting students and warning contacts of exposure in order to stop chains of disease transmission. To protect student privacy, contacts are only informed of potential exposure to a person with the infection. Students are not told the identity of the person who may have exposed them.

Contacts are encouraged to stay home and maintain social distance from others (at least 6 feet) until 14 days after their last exposure, in case they also become ill. They should monitor themselves by checking their temperature twice daily and watching for cough or shortness of breath. Contacts who develop symptoms should promptly isolate themselves and notify public health staff. They should be promptly evaluated for infection and for the need for medical care.

If any of the following are true during the week (7 days) after class attendance, please indicate the true statements) and either telephone the Soapmaking Studio at +1 (619) 668-1435 or mail this postcard.

I don't feel well. I have flu-like symptoms.
 I have a fever. I tested positive for COVID-19.
 I am sick. Someone in my household has COVID-19.
