

## Fragrance Oils (Seasonal List)

We stock only the Crafter's Choice skin-safe fragrance oils that do not contain parabens, phthalates, or nitro-musks. Our fragrance oils do not contain any California Prop 65 reportable ingredients or California CSCA listable ingredients. We only sell fragrance oils with high flash points to promote a safer work environment and a longer lasting scent. The Fahrenheit temperature after each fragrance oil indicates the oil's flash point. "ON" is "odor neutralizing," meaning the fragrance is suitable to neutralize a foul scent from an ingredient in a product. Names marked with "VAN" include vanilla/vanillin and require Vanilla Color Stabilizer to prevent product discoloration. Fragrance names marked with an asterisk (\*) are available in pound bottles for \$30. 2-ounce amber glass bottles of concentrated fragrance are \$7 each or 6 for \$35.
